## INVITATION

### **STUDENT DEVELOPMENT WORKSHOP (Organized by Self-financed Teachers and Students)**

Dear All,

A workshop is generally more specific and talkative.

The main difference between workshop seminar symposium and conference is their unique characteristics: Workshops are more practical in nature, seminars are more academic in nature, while symposiums and conferences tend to be more formal in nature.

#### **Definition of a Workshop:**

Workshops are teaching and learning arrangements, usually in small groups, that are structured to produce active participation in learning. Traditionally, workshops provide participants with the opportunity to practice skills and receive feedback. However, current usage is so loose that any learning event that aspires to engage the learners actively may be called a workshop.

We are planning to conduct a **Student Development Workshop** on **28.04.2022** at our College for the benefit of English Department teachers and students with the aim of English language proficiency.

The resource persons organized for this workshop are experts who provide information and opinions to participants in the learning environment. Participating teachers and developing students will benefit from the clear experience, insight, support, encouragement and vision of our resource persons.

We humbly invite everyone to attend this workshop.

**Valandhur Mr. P. Pandian B.A.,**  
Secretary / Kallar Kalvi Kazhagam

**Dr. O. Ravi**  
Principal
